

# CONSTANT FORCE SPRINGS

## Performance by Design

HS Spring is the preferred provider of constant force and power springs to many industries. We deliver a high value, high quality product – for even the most complex technical situations – with maximum attention to service.

### The force of knowledge

From short runs to complex, high-volume jobs, our experienced personnel have the technical expertise to manufacture all types of springs, including constant force. If needed, we can provide complete production assemblies. Your project benefits from the advancements made possible by our ongoing research and development.

### Put top skills to work for you

We excel at prototyping, product development and scalable solutions. HS Spring engineers will work closely with you from concept through production. Our value-engineering analysis will generate ways to maximize performance and minimize costs.

We have the experience and technical expertise needed to properly manage your project. From quoting, to order processing, to prototyping, to manufacturing, to delivery – service is a top priority for the entire staff.

### Customized solutions for diverse applications

We have provided a wide variety of customized applications, including:

- Furniture
- Toys
- Electric motors
- Fire dampers
- Small appliances
- Power tools
- Signage
- Vacuums
- Retractable pet leashes
- Dishwashing equipment
- Prosthetic devices
- Medical imaging equipment
- Cargo shade mechanisms
- Security devices
- Point-of-purchase/display applications
- Mechanical applications
