

ALWAYS READY FOR THE NEXT CUSTOMER

Seize every retail opportunity with

SLIDELINE™ *Pusher Systems*

SLIDELINE Pusher Systems maintain retail shelves that are organized, attractive and efficient. Products are neatly aligned in appealing display trays, and spring tension holds each row in place. When a customer chooses an item, the next item automatically is pushed to the front.

No more overlooked, half-empty displays. No need for customers to fish to the back for the item they want.

From makeup, to CDs and DVDs, to impulse items by the cash register... you can maintain appealing merchandise displays while reducing staff time spent refreshing the appearance of the stock. When products are automatically repositioned, you are ready for every customer who walks down the aisle.

SLIDELINE™ Pusher Systems

Easy... durable... attractive.

Made from rigid PVC plastic, *SLIDELINE Pusher Systems* operate with the highest quality springs.

To accommodate diverse customer needs, we offer complete tray systems as well as separate components. All standard products are available for immediate delivery from stock.

Practical systems for any configuration.

SLIDELINE Pusher Systems are remarkably versatile and specifically designed for fast and easy installation.

The systems will fit an unlimited variety of shelving and fixture configurations. Sizes can be customized to any shelf depth. The trays can be modified to display products of various width and depth and will readily accommodate multiple package sizes.
